IS YOUR POWERED INDUSTRIAL EQUIPMENT TRAINING ALL THAT IT CAN BE?

Across the United States and Canada, government regulations and industry standards mandate all powered industrial equipment operators to be trained and evaluated on the equipment they are required to operate. This training must be delivered by a qualified person that has the knowledge, training and experience to perform the work at hand.

IVES' Train the Trainer programs can help by qualifying you or a person of your choosing to deliver training to all of your powered industrial equipment operators in-house and compliant with the law.

Our programs are a comprehensive, cost effective method of ensuring that your operators receive training and evaluation that meets or exceeds all applicable government regulations and referenced industry standards.

When your company qualifies someone as an IVES Certified Trainer through one of our programs everybody wins. Employers enjoy lower operating costs due to less equipment related incidents as well the security of being full regulatory compliance and employees reap the benefits that come with being in a safe working environment.

ATTEND THIS PROGRAM AND LEARN HOW TO:

- Deliver classroom theory.
- Deliver practical hands-on training.
- Conduct evaluations on the equipment.
- Complete the required documentation.

WHO SHOULD ATTEND?

The selection of the person who is to become your trainer is critical to the process. A great candidate is one who has an interest and passion for safety, equipment knowledge and experience, communication skills, people skills and a core belief that doing things safely is always the right thing to do.

6 Reasons Why You Should Choose IVES Training Group

1. In the 40+ years IVES has conducted business we have established ourselves as one of the most trusted and respected companies in the powered industrial equipment training industry. Our dedication to the quality of our programs and materials, along with unparalleled customer support has earned IVES an impressive list of customers.
2. We field extremely experienced, knowledgeable and competent trainers recruited from within industry that bring significant, real world experience to the programs they deliver for us. When you contract IVES for a training program, we will send a seasoned professional who is committed to providing excellent training.
3. We carry professional liability insurance on all of our contract trainers to protect you from any liability that may occur while our trainer is on your site. This is a significant business expense that many less reputable training providers do not carry.
4. We develop and produce our own operator training manuals and written support materials. In doing so for more than 40 years, we have become experts in our field and are often called upon to advise government regulatory agencies, provide expert testimony in legal litigations, and submit topical articles and presentations to industry related publications and conferences.
5. The support network integral to the IVES Training System™ includes FREE and easily accessible general and technical support, use of our Train Trak Operator Recertification Reminder System, downloadable materials and updates, as well as exclusive discount pricing on our industry leading operator training materials.
6. From introduction to final documentation, we will ensure that your in-house safety training is compliant, accurate, effective and all that it can be.

CLIENT TESTIMONIALS

“IVES Training is without a doubt the best instructor program on the planet.” Rudy, High Impact Inc.

“Any company that owns or uses industrial equipment should use this program.” Nathan, Wonderful Company.

“IVES has the most comprehensive training program around, and I have taken a lot of training.” Sarah, Washington State University.

“One of the best safety investments my company has made, was incorporating IVES Training.” Jesse, Scaled Composites.

On-Site Training

We can deliver training at your location (on-site) for your employees on your equipment. On-Site Training Programs are a cost-effective alternative to sending your trainees to an open enrollment course at our locations. Available in Train the Trainer or operator course formats for forklifts, aerial lifts and loaders. Enjoy all the benefits of an IVES training program without the hassle and expense of sending your employees off-site!
